

# One-Click Order Record Setup WHITEPAPER

*Innovative Interfaces, Inc (III)*

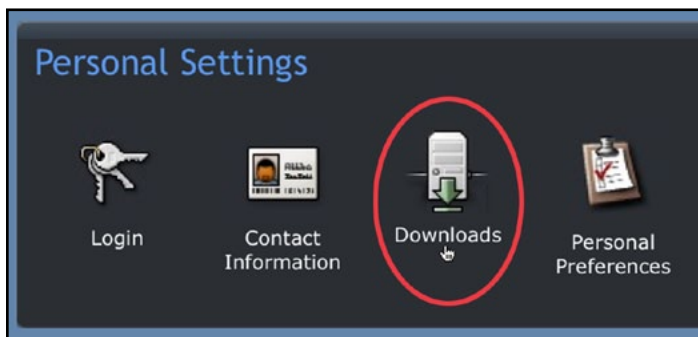

One-Click is a module available from Innovative Interfaces (III) that gives you the ability to download the Vendor MARC Records from our website to your Innovative ILS with just one click. The ILS has an agent that automatically pulls in the MARC records from an FTP site.

## Set Up One-Click

1. Log into the CVS Midwest Tape website.
2. Click on the *Settings* tab.

3. Click on the *Downloads* icon.

4. Within the Downloads page, select "send via FTP" in the *Vendor and MARC on the Spot Records* section.  
(Selecting this will ensure this option appears in your cart.)

### Downloads

---

**Vendor and MARC on the Spot Records**

download immediately via browser

send via FTP

send via email to

just one order or cart at a time

5. In the *When Sending Information via FTP* section, enter the information supplied by Innovative to connect to their server.

**When sending information via FTP**

FTP URL:

FTP port:

FTP directory:

FTP username:

FTP password:

FTP mode:

filename prefix:

include timestamp in file names

6. After you've completed the *MARC on the Spot Records* and *When Sending Information via FTP* sections, click "Test" to test your settings. (You will receive a pop-up message notifying you if the test was successful.)

**Downloads**

**Vendor and MARC on the Spot Records**

download immediately via browser

send via FTP

send via email to

just one order or cart at a time

**Orderline Records**

download immediately via browser

send via FTP

send via email to

just one order or cart at a time

**When sending information via FTP**

FTP URL:

FTP port:

FTP directory:

FTP username:

FTP password:

FTP mode:

filename prefix:

include timestamp in file names

7. Select "Save" once you've finished testing.

(Note: This setup must be done for each individual login that will be using the One-Click process.)

FTP mode:    
filename prefix:   
 include timestamp in file names

Now that you've saved your settings in the *Downloads* screen, when you click to download Vendor Records for titles within your cart, our site will send your records directly to Innovative's server via FTP. From there, the records will import directly into your Innovative system.

If you need 9xx tags added to your Vendor Records, we can program these for you. The 9xx tags contain your library-specific fund codes, location codes, and pricing information and create the order records in your system when the brief MARC file is imported ([read our whitepaper on 9xx Ordering](#)). Please contact Randy Selhorst (processing customers) at [rselhorst@cvs-midwesttapes.ca](mailto:rselhorst@cvs-midwesttapes.ca) or Laura Peitz (non-processing customers) at [lpeitz@cvs-midwesttapes.ca](mailto:lpeitz@cvs-midwesttapes.ca) for 9xx programming and information.

**For information on One-Click setup, please contact Customer Service at 866.698.2231.**
