

Through our relationship with OCLC, Midwest Tape is able to offer Full MARC Records, which are downloadable directly from our website

at any time! Records are available for *any* title we sell. Setup is easy, and you can begin downloading immediately.

Through the Cataloging Partners Program with OCLC, you will have holdings updated in WorldCat.® Midwest Tape will send a monthly invoice for the amount of the records purchased.

How can this help me?

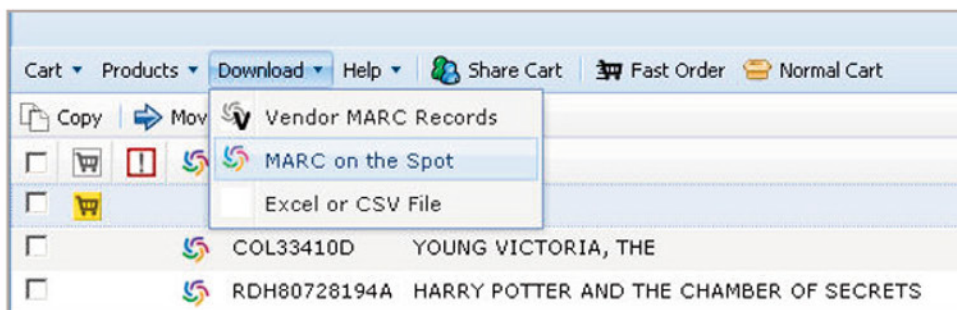

- We can include 9xx (order tags) in Full records.
- Eliminate overlaying MARC records by creating an order with a Full record.
- Purchase records for any title we sell, including records for past orders.
- Holdings updated in WorldCat.®
- All records are billed per title, not per load, so you can download the same record multiple times if needed.
- Choose when you want to buy records.
